# Dane County Youth Assessment 2024

## High School Grade Level Report

The Dane County Youth Commission is pleased to release this High School Grade Level Report from the 2024 Dane County Youth Assessment. Every three years, youth in grades 7-12 complete the DCYA, which captures their opinions, concerns, behaviors, attitudes, and experiences on a range of topics. This report covers the responses of high school students. The DCYA is a collaborative effort led by the Dane County Youth Commission in partnership with the United Way of Dane County, Public Health Madison & Dane County, the City of Madison, and school districts in the county. For the full results of the current and past Dane County Youth Assessment(s), current and past Overview Reports, as well as further demographic analysis, please go to <https://danecountyhumanservices.org/About-Us/Commissions-Boards-and-Committees/Youth-Commission/Youth-Assessment>

In 2024, 15,448 9<sup>th</sup>-12<sup>th</sup> grade students completed the Dane County Youth Assessment. The 2024 survey was administered between January 15, 2024, and April 15, 2024 to middle and high school students across seventeen public school districts. Student participation was voluntary and anonymous. Parents were notified in advance of survey administration and could opt their child out of participating.

Survey development is led by K12 Associates, LLC and a committee comprised of educators, public health professionals, project funders, and youth interns. The survey includes questions about protective and risk behaviors across contexts of school, peer relations, family, and community. The DCYA is a behavioral risk survey that uses self-report methodology. This methodology is widely used and has proven to be valid and reliable. The validity of the assessment is supported by the large survey population, the fact that results are in-line with national trends, and the consistency of the findings over time. The 2024 DCYA includes new questions on emerging youth issues while retaining important questions from past surveys to measure trends. The survey includes items from the national Centers for Disease Control and Prevention (CDC) Youth Risk Behavior Survey and other national surveys to allow for comparisons to youth in the U.S. and in Wisconsin. Extensive efforts are made to ensure that questions are clear and understandable. The survey is available in multiple languages.

The 2024 DCYA marks the eighth time the Youth Commission has coordinated an opportunity for 7<sup>th</sup>-12<sup>th</sup> grade youth in Dane County to voice their opinions, needs, concerns and interests. This effort provides the community with information and insight on youth trends. Although not the only source of information on what is impacting youth in our community, the DCYA provides one very valuable resource to inform program and policy decisions. The Youth Commission and its partners hope that youth-serving agencies, community stakeholders, parents, policy makers, school districts and youth will use this and subsequent reports to appreciate where we have been, to recognize the successes and challenges of today, and to create an even brighter future for Dane County. The Youth Commission would like to thank the funding partners, school districts, committee members, and the students and parents of Dane County for making this project possible.
